## INTRODUCTION

---

On March 10, 2011, Canning and Area embarked on the first of several strategic planning sessions. The Village of Canning, along with surrounding communities including: Baxter's Harbour, Bennett's Bay, Blomidon, Glenmont, Habitant, Halls Harbour, Kingsport, Lookoff, Lower Canard, Medford, Ross Creek, Scotts Bay and Sheffield Mills, conducted several strategic planning sessions to develop its community strategic plan. Sessions were held on March 10, 2011, March 31, 2011, April 20, 2011, May 17, 2011, June 21, 2011, July 26, 2011 and September 20, 2011.

The plan provides an overview of the existing situational analysis of Canning and Area and identifies a vision, mission and core values to guide Canning and Area's activities moving forward. The plan will identify clear goals and objectives that will assist Canning and Area in focusing on priority areas over the coming years.

The plan will also incorporate recommendations as identified in the Roger Brooks' regional assessment entitled "*Assessment Findings and Suggestions Report*" that was conducted in November 2010.

The following document provides a summary of the strategic planning exercise and highlights the main recommended elements that will constitute Canning and Area's Strategic Plan.
